Lender Support Systems, Inc. Releases LSSIConnect

- Request router connects lenders with products, services available from LSSI and third parties -

Tampa, March. 26, 2007 – Lender Support Systems, Inc. (LSSI), a global provider of eMortgage enabled lending and loan servicing technology solutions, announced the release of LSSIConnect, a single Internet connection point for ordering any LSSI product, service and specific third-party partner services sold through LSSI.

LSSIConnect serves as a stand-alone or integrated application directing users to a number of Web service interfaces to create a marketplace of origination services for lenders. The lender is able to access the desired product or service seamlessly via LSSIConnect on the Internet. LSSIConnect is also seamlessly interfaced with several loan origination systems (LOS) making it easier to stay within the LOS without exiting the application to order various services.

Products accessed through LSSIConnect include Docs3D, WebDocs, DocWin, LSSI E-Disclosure services, LSSI Flood certificates and access to ComplianceEase products. Once customers are authenticated using a login and password, LSSIConnect creates logs and passes a transaction identifier for every request received.

“Through LSSIConnect, lenders can utilize a fully automated, virtual marketplace of origination solutions provided by LSSI and our strategic partners such as ComplianceEase. LSSIConnect enables our customers to speed the ordering process of various services which translates into improved productivity” said Cary Burch, president and CEO of LSSI.

About LSSI

Founded in 1982, Lender Support Systems, Inc. (LSSI), led by mortgage industry veterans, provides a superior suite of eMortgage enabled technology solutions to mortgage lenders (including but not limited to bankers, credit unions, community banks) and service providers as a platform for building more streamlined, cost effective and profitable loan origination services. The company offers a full suite of technology solutions including: compliance services, mortgage closing document preparation software,

servicing software, document imaging, data extraction, business process outsourcing solutions and custom software solutions.
